Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art does not teach a heat dissipating device with a base for supporting a rotor that includes an impeller and shaft, with a both a bearing portion coupled to the shaft and the based for supporting the rotating shaft and a magnetic portion coupled to the shaft and the base for generating radial and axial magnetic forces; where the magnetic portion includes a first portion with two magnetic rings aligned radially for substantially primarily providing the radial magnetic force and a second magnetic portion with three magnetic rings disposed axially for substantially providing axial magnetic forces. The prior art does not teach a heat dissipating device with a base for supporting a rotor that includes an impeller and shaft, with a both a bearing portion coupled to the shaft and the based for supporting the rotating shaft and a magnetic portion coupled to the shaft and the base for generating radial and axial magnetic forces; where the magnetic portion includes a first portion with a first, second and third magnetic ring where the first magnetic ring is axially aligned with the second ring for generating an axial magnetic force between the rings and the third magnetic ring is radially aligned with the second magnetic ring to generate a radial magnetic force between the rings and a second magnetic portion with a first, second and third magnetic ring where the first magnetic ring is axially aligned with the second ring for generating an axial magnetic force between the rings and the third magnetic ring is radially aligned with the second magnetic ring to generate a radial magnetic force between the rings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
